Ohio 4-H Horse Program Helmet Policy, as of January 1, 2010 thru current

This includes ALL 4-H club riding meetings, practice, trail rides and horse shows. Following is the wording as it is stated in the Uniform Rules for 4-H Horse Shows with regards to the new helmet policy.

"All youth age 19 and under, participating in any 4-H equestrian activity, are required to wear properly fitted protective headgear which meets or exceeds current ASTM (American Society for Testing and Materials)/SEI (Safety Equipment Institute) standards with the chin harness securely fastened at all times while riding or driving an equine. It is the responsibility of the rider, or the parent or guardian of the youth participant, to make sure that the headgear worn complies with appropriate safety standards for protective headgear intended for equestrian use, and is properly fitted and in good condition. The Ohio 4-H Horse Program, Show Committees, Officials, Extension Personnel and Volunteer Leaders are not responsible for checking headgear worn for such compliance. The Ohio 4-H Horse Program, Show Committees, Officials, Extension Personnel and Volunteer Leaders make no representation or warranty, expressed or implied, about any protective headgear, and cautions riders that death or serious injury may result despite wearing such headgear, as no helmet can protect against all foreseeable injuries in equestrian activities. The Ohio 4-H Horse Program, Show Committees, Officials, Extension Personnel and Volunteer Leaders may, at his/her discretion, check a participant's protective headgear for proper standards. If the youth is found to be wearing unapproved, defective, or improperly fitted headgear, he/she will not be permitted to participate in riding or driving activities until proper headgear is acquired."

FOR ALL PROJECTS:

Here are just a few examples of types of photographic explorations that might be included in this class:

- Create a collection of images illustrating a “picture story” or a “documentary” with print or digital images.
- Experiment with a variety of lighting intensities and angles, and apply your new knowledge to your photography.
- Learn to see in “Black and White” and explore how removing color changes the mood, focus of attention, or even attractiveness.
- Use a specialized technique, such as selective focusing or enlarging, to change an image’s focal point, feel, meaning, etc.
- Learn how to use the manual settings on your camera to your advantage (i.e. nighttime photography).

Each participant may bring any extra materials they feel will demonstrate the learning experiences of the current project year, but are not required to do so. Equipment to view digital images and or portfolios must be provided by the exhibitor. Be aware that Internet/WiFi service will not be available at the judging site! Images should be contained on your display devices.
